

GRANT FOR IMPLEMENTATION OF ENERGY EFFICIENCY PROJECT

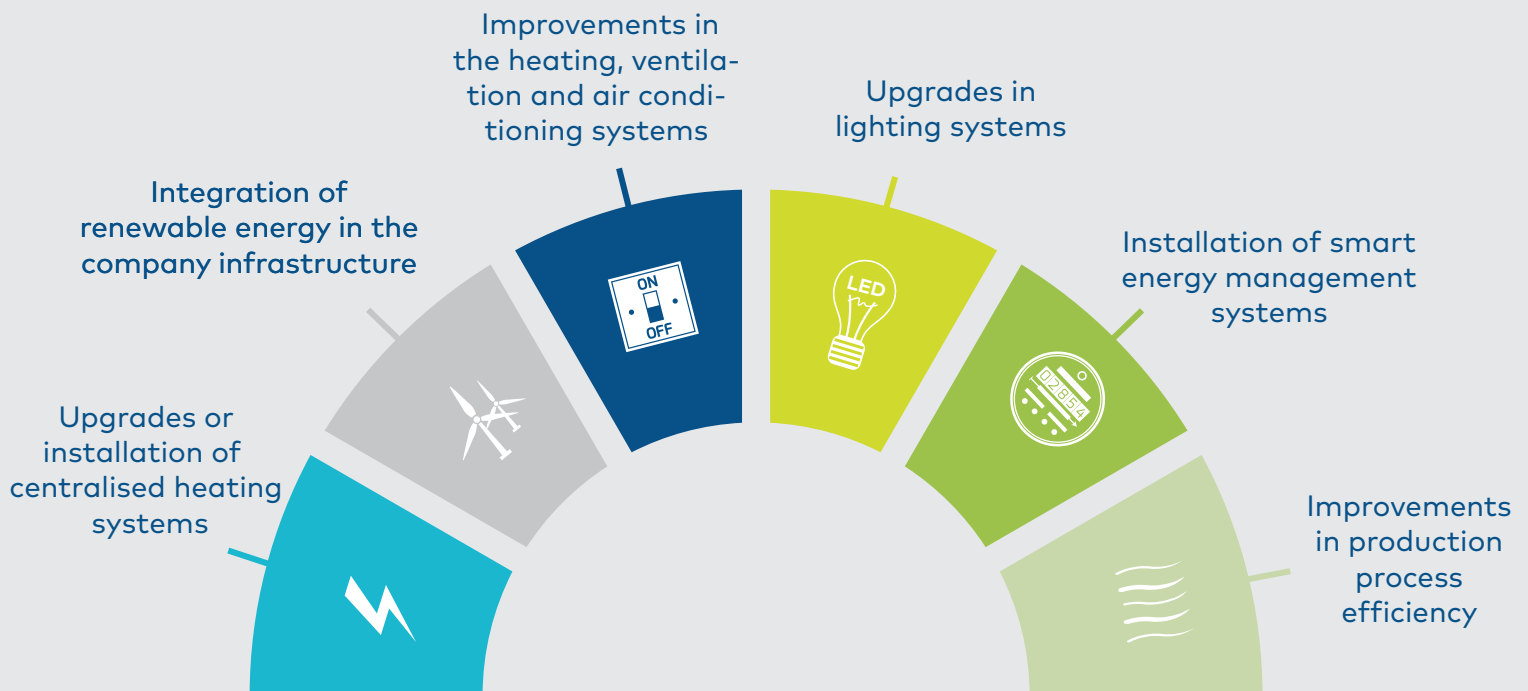

For researching energy efficiency solutions and preparing feasibility studies. The grant covers **up to 85%** of the total costs of the work

The company becomes **more energy-efficient**. The **solutions** proposed by energy auditors enable the company to determine the amount of investments necessary as well as the return period

The grant may be awarded to companies intending to improve the **energy efficiency** of their infrastructure

Investments in improving the company infrastructure must be made by the end of 2021

- data analysis
- review of alternatives
- development of conceptual diagrams
- energy audits
- process measurements
- preparation of feasibility studies
